

Pharmaceutical Packing Material for Outer Packing or Inner Packing:

1. Empty Capsules Gelatin Capsules
Pullulan Vegetable Capsules
Hydroxypropyl Methy Cellulose Vege table Capsules(HPMC Capsules)
2. Moulded Injection Vials (glass)
3. Infusion Bottles (glass)
4. Bottles for Syrups (glass)
5. Plastic Bottle
6. Ampoule Bottle
7. Plastics Bottle for Eye Drops
8. Nasal Sprayer Nasal Sprayer bottle
9. Alu Caps
10. Alu-Plastic Caps
11. Plastic Cap
12. Rubber Stopper
13. Rubber Disk
14. Alu Foil
15. Complex Film
Alu Barrier Laminate Plastic Barrier Laminate Paper/Alu/PE
Paper/PE
Paper/PE/Alu/PE
PET/AL/PE Laminated Film
PVC/LDPE Composite for Suppository
16. PVC Rigid Film
17. PVC/PE Laminated Film
18. Paper Board
19. Dialyzing Paper
20. PE Coated Paper
21. Adhesive Paper

Pharmaceutical Equipment

Automatic Capsule Filling Machine

Filling Capacity: from 400-2000/min

Touching-Screen, PLC program control panel with LCD.

Qualified over 99% with highest precision and accuracy

Capsule type: #0, #1, #2, #3,#4

Easy speed selection and capsule adjustment.

Vacuum Emulsifying Mixer

Volume: from 100L to 1000L

High speed homogenizer (0-3500RPM) and low speed

Mixer

Double wall mixer, with heating and cooling function

With vacuum system

Mixer material real time temperature controller

Bottle Filling and Capping Machine

Filling Quantity : from 20-100 ml

Production capacity: 80-120 bottles per minute

Tolerance of Filling quantity : $\leq 1.5\%$

Filling rate: 99.5% or higher

For compressed air pressure: 0.4-0.4 Mpa

Usage: 250-350 l/min

Multi-direction Movement Mixing Machine

Barrel Volume: from 15L-1000L.

Loading coefficient up to 80%

Mixing rate up to 99.9%

Multi-direction movement

Stepless speed controlled

Three-dimensional motion inside the barrel

Pharmaceutical Machinery

1. Pulverizer
2. Sifter
3. Fluid Bed Dryer
4. Multi-direction Mixer
5. Vacuum Conveyor
6. High Shear Mixer Granulator
7. Vacuum Emulsifying Mixer
8. Tablet Press Machine
9. Capsule Filling Machine
10. High-efficiency Film Coating Machine
11. Blister Packing Machine
12. Cartoning Machine
13. Labeling Machine
14. Bottle Unscrambler
15. Cap Screwing Machine
16. Bottle Filling and Capping Machine

Analytical devices

- Incubator
- Drying Oven
- Spectrophotometer
- Analytical Balance
- Moisture Analyzer
- Horizontal Clean Bench
- Polarimeter
- Viscometer
- PH-meter
- Colony Counter
- Melting Point Instrument
- Rotatory Evaporator
- Ultrasound Cleaning Machine
- Pure water instrument

Medical Products

Disposable Surgical

Gloves Latex with powder

Sterile and Un-sterile

Disposable Syringe

Type: 1ml 2ml 3ml 5ml 10ml

Packing: PE/Blister/hard Blister

Infusion Set

ASB Spike with air vent

Tube length=1500mm

Insulin Syringe

Type: U40 /U100

Size: 0.3ml, 0.5ml, 1ml

Insulin Pen Needle

Size: 29G 30G 31G 32G

Non-toxic and non-pyrogenic

Stomach Tube

Length: 90cm 110cm

With/without X-ray line

Digital Trolley Ultrasound Scanner

Wide application: abdomen, OB/GYN, urology, cardiology, small organs 8-

Segments of TGC adjustment

OB measurements: BPD, GS, CRL

FL, AC, HC, etc

6times both in real-time and frozen

Digital Portable Ultrasound Scanner

Wide application: abdomen, OB/GYN, urology, cardiology, etc

8-Segments of TGC adjustment OB

measurements: BPD, GS, CRL FL,

AC, HC, etc

10 inch VGA monitor

High Frequency Mobile Digital C-arm System

Output Power: 16KW

Inverter frequency: 60Hz Dual-focus: small focus 0.3, large focus 0.6

Fluoroscopic type: continuous, enhance, pulse

Tube Voltage: 40-125kV

Tube Current: 0.3-30mA

Latex Series

1. Latex Surgical Gloves sterile
2. Latex Surgical Gloves unsterile in-bulk
3. Gynaecological Gloves
4. Condom Flavor
5. Condom Thin

Infusion/Syringe Series

1. Infusion Set
2. Syringe
3. Transfusion Set
4. Insulin Syringe
5. Insulin Pen Needle
6. Hypodermic Needle
7. Scalp Vein Set

Others

1. Pregnancy Strips
2. Ovulation Strips
3. Patient Band
4. Gloves Moulds

Catheters/Urine Series

1. Feeding Tube
2. Nelaton Catheter
3. Suction Catheter
4. Rectal Catheter
5. Urine Bag
6. Pediatric Urine Bag

Medical Devices

1. Digital Trolley Ultrasound Scanner
2. Digital Portable Ultrasound Scanner
3. Digital Laptop Ultrasound Scanner
4. High Frequency Mobile Digital C-arm System
5. High Frequency Mobile X-ray Equipment
6. Patient Monitor
7. Electrocardiograph
8. Pulse Oximeter
9. Dynamic ECG Systems
